From: Special Agent Bryan Bean
Federal Bureau of Investigation (FBI)
Case: CPFTC2886 – Ongoing Investigation
Date: 5th Feb 2026
To: Frank Larsen

Subject: Urgent Action Required – Ongoing Investigation

This is Investigating Officer Bryan Bean with the FBI.

Frank, listen carefully. You've lost control of the situation, and it needs to be corrected immediately.

Your attempt to process an \$8,000 transaction failed. Only \$6,000 went through. That error triggered duplicate charges and exposed multiple accounts tied to your name.

We've now confirmed an additional unauthorized withdrawal of \$10,000 across accounts ending in 3563, 8376, and 0243. This breach has escalated. At this point, it's no longer something you can fix on your own.

You were given instructions. Today, you stabilize the damage.

As a containment measure, you will withdraw \$10,000 in cash. Before you reach the bank, Microsoft security personnel will instruct you and walk you through setting up access to a Bitcoin ATM monitored by the Federal Trade Commission. You will take the cash to that location and make the deposit. You will be guided step by step. Do not improvise.

Once network security is in place, the duplicate charges will be reversed and the missing funds recovered. Federal authorities are already involved. This call is being monitored and logged as evidence.

Your cooperation determines how this ends.

Important:

Please strictly adhere to the above instructions and coordinate with Grace Adams for further assistance. Do not take any actions outside of the outlined plan, as deviation from the procedure could have significant consequences.

Rest assured, the FBI is fully committed to safeguarding your identity and ensuring your financial security. However, failure to comply with this directive may result in serious legal ramifications. Your cooperation is paramount in the swift resolution of this case.

We expect your prompt compliance and cooperation.
